

# Acura Soft

The fresher company.

## Liquid Softener

The information provided herein is given on an advisory basis which does not imply any liability on our part. For further details see our relevant safety data sheet.

**Acura Soft** is a liquid softener for use in the last rinse.

It is used as a substantive, cationic finishing agent for cotton, polyester and mixed fabrics. Terry goods are provided with a soft voluminous handle and the articles remain hydrophilic. Low dosage into the finishing chamber will enhance the gliding capacity of the goods in water extraction and on the mangle. We recommend to generally acidify to a pH-value of 6,0 – 6,5 in the last bath.

### CHEMICAL–PHYSICAL DATA:

Aspect:	milky, pink dispersion	
pH-value:	approx. 6,5	(1 % solution)
Density:	approx. 1,02 g/ml	(20 °C)

### RECOMMENDED DOSAGE:

Hardness Range	Water Hardness in mmol CaCO <sub>3</sub> /l	Rinse
1	< 1,5 soft	1 – 6 ml/kg
2	1,5 – 2,5 medium	1 – 6 ml/kg
3	> 2,5 hard	1 – 6 ml/kg

Recommended dosage per kg of dry laundry at a bath ratio of 1 : 4.

**STORAGE CONDITIONS AND MAXIMUM STORAGE TIME:** see relevant safety data sheet.
